

KARTHICK PANDI

FULLSTACK DEVELOPER

9787421490 Madurai,India karthickpandi0328@gmail.com in.karthickpandi.com

ABOUT ME

Motivated Full Stack Developer with a Master's in Computer Applications and hands-on experience in ReactJS, Node.js, and modern web technologies. Skilled in building responsive web applications and integrating AI-driven solutions. Seeking an entry-level developer role to contribute technical expertise, enhance user experiences, and grow through continuous learning and collaboration

WORK EXPERIENCE

Geosoft Technologies, Madurai, India

fullstack Developer Jan 2025 – Jun 2025

- Led development of AI-powered SEO/digital marketing tools for college project, automating workflows with NLP for Yoast-compliant blog posts (SEO titles, metas, images, links), top-10 competitor analysis by niche/location/keywords, Google algorithm audits with suggestions, and backlink generation via scans for free sites—yielding 40% less manual work, boosted SEO analyst productivity, and 30% simulated ROI via scikit-learn ML and web scraping.
- Designed responsive interfaces with ReactJS (dynamic components/state), JavaScript (dashboards), HTML5/CSS3/TailwindCSS (styling/accessibility), achieving 25% faster loads; integrated Java backend (Spring Boot) for data/API handling (OpenAI, Google Analytics/SEMrush).

Ponnaiya's code and genome pvt ltd July2025 – Present

E-Commerce Web Application

- Technologies: React.js, JavaScript, Node.js, MongoDB, Tailwind CSS
- Developed a full-stack e-commerce platform with product management, shopping cart, user authentication, and order processing features.
- Built responsive and user-friendly interfaces using React.js and Tailwind CSS.
- Designed and integrated RESTful APIs using Node.js and MongoDB for efficient data management.
- Improved application performance and user experience through optimized frontend and backend development.

3D Molecular Visualization System

- Technologies: Python, React.js, Node.js
- Developed a web-based 3D visualization system for displaying molecular structures and protein-ligand interactions.
- Utilized Python for scientific data processing and React.js for interactive 3D visualization.
- Integrated backend services using Node.js to support real-time rendering and data management.
- Enabled researchers to explore biological compounds and molecular interactions through dynamic 3D models.

PROJECT

ONLINE VEGETABLE MARKETING

Designed and deployed scalable e-commerce platform using HTML/CSS/JavaScript frontend and Python/SQLite backend, empowering sellers to manage dynamic product listings, real-time pricing adjustments, and automated delivery scheduling via calendar APIs—facilitating 200+ mock transactions with 98% fulfillment accuracy and 35% faster user navigation through Bootstrap-responsive design and Stripe sandbox payments.

AI INTELLIGENT DIGITAL MARKETING

- Built a full-stack tool automating Yoast-compliant blog generation, competitor analysis (top 10 rivals), Google audits, content gap detection, infographic creation, and backlink
- Implemented JWT authentication, role-based Chart.js dashboards, and API integrations (Google Analytics, SEMrush) for real-time insights; used ReactJS/TailwindCSS for mobile-first frontend, Node.js/Express.js backend, and MongoDB for handling 100 concurrent users.
- Enabled seamless content optimization from title/keyword inputs to outputs like SEO titles, metas, images, and links; focused on high availability and dynamic data management to streamline digital marketing processes.

EDUCATION

Master of Computer Applications

KLN COLLEGE OF ENGINEERING

2023 – 2025

Bachelor of Computer Science

THE AMERICAN COLLEGE

2020 – 2023

SKILLS

Frontend

- HTML
- Tailwind CSS
- JavaScript
- ReactJS

Programming Language

- Python

INTERESTS

- Web development
- responsive UI/UX design
